SUMMARY

Senior Front End Developer with 8 years of experience in the tech industry delivering scalable, user-focused web applications. Expert in modern front-end frameworks (React, Next.js, TypeScript) with strong skills in UI/UX, testing (Jest, Cypress, Playwright), and cloud deployment using AWS. Proven track record of leading feature development, improving developer workflows, and mentoring teams to deliver high-quality, accessible products.

SKILLS

Front End: TypeScript, React, Redux, Next.js, Angular, SCSS, Tailwind CSS, MUI, ChakraUI, HTML5, CSS3, JavaScript (ES6+), Responsive Design, Accessibility (WCAG)

Testing: Jest, Cypress.io, Playwright, Protractor, TDD, E2E Testing

Cloud & Deployment: AWS (Lambda, CI/CD, Data Pipelines), GitLab CI/CD, GitHub

Tools & Workflow: Jira, Confluence, Asana, Agile Development

Other: UI/UX Audits, Wireframing, Prototyping, Figma, Analytics (Google, Segment), Monitoring (Datadog)

EXPERIENCE

Red Vector, Inc (Full-Time) — Senior Front End Developer

March 2024 - Current

- Built scalable front-end apps with React, Next.js, and TypeScript.
- Introduced modern workflow practices (PR templates, Tailwind, SCSS, Jest, Playwright) improving developer velocity and code quality.
- Led development of a data visualization system with Regraph.
- Conducted a UI/UX audit, delivering actionable recommendations to modernize customer experience.
- Integrated AWS data pipelines and generative AI features into front-end workflows.
- Collaborated with backend teams to align APIs with front-end requirements.

Cross Country HealthCare (Full-Time) — Senior Front End Developer

October 2022 - February 2024

- Designed and maintained scalable front-end architectures with TypeScript, React, and Redux.
- Mentored junior developers; improved code quality with reviews and automated testing (Jest, GitLab).
- Implemented accessibility standards (WCAG) across web applications.
- Integrated analytics (Google, Segment) to optimize product insights.

Class Dojo (Contract) — Senior Front End Developer

August 2021 - September 2022

- Built front-end tools using React, Next.js, TypeScript, and ChakraUI.
- Applied TDD with Cypress.io; monitored errors with Datadog.
- Streamlined onboarding with developer documentation and environment setup.
